Goldman- Sachs, Baring, Oppenheim, Rockefeller, Rothschild, Warburg, Mellon, J.P. Morgan, Sieff, Schiff, Sassoon, Whitney, Monteflore, and Goldmids all were the family banking dynasties.

Europeans voted down the EU, but it still passed.

Andrew Jackson had to fire 2,000 of 11,000 federal government employees. He removed government deposits in talmudist banks; the bank was creating bonds (debt which must be paid with interest) instead of issuing treasury notes.

85% of U.S. stocks were owned by the rich in 1960.

In the future, there will be more ex-Muslims saying “islam enslaved me.” In America and Europe, there will be more “reverts” saying “America and Europe enslaved me.” What will happen in these countries is the public will speak better about their countries and worse about Islam or they will speak highly of what they think is Islam and speak the worst about their countries. This will cause more dislike between America and Europe to Islam.

The elites and their pawns share every single detail about the senseless things they believe and what they do in their day to day lives such as eating breakfast that no one cares about, but they will never talk about their goals for the “third” temple in their countries that teach everything is “ongoing.”

In America, Darwinism is a theory that has not been disproven in 2023. That means I cannot be proven right that we have human rights that are definite, seriously?

In America, the days of getting mad at paying welfare must end because America wants a high amount of their citizens diagnosed saying their neighbors who they don’t get along with are “mentally ill.”. Americans cannot have it both ways.

The elites and their pawns share every single detail about the senseless thing they believe and what they do in their day to day lives such as eating breakfast that no one cares about, but they will never talk about their goals for the “third” temple in their countries that teach everything is “ongoing.” What a waste of space they are.

Darwinism is a theory that has not been disproved in 2023 in most of the world. That means I cannot be proven right that we have human rights that are definite. Seriously?

You can write to congress men and women as you are encouraged to, the congress men and women never respond to those who write to them.

If covid doesn’t shut down in full in America, all Americans should be entitled to monthly checks from the government.

In America, the lawyers won’t take cases if you have no money meaning none can represent you.

Catholics talk about how they are “open minded” since they keep changing their political beliefs. They stay catholic their whole lives; it is a trick they try. Catholics would fit the description of “close minded.”

The Quran was orally transmitted from Muslim to Muslim until it was compiled and made into a text for a holy book copy. That’s the same as the Old Testament, that’s what the Israelites did with the holy text.

We the public don’t know how many books someone has read, or which books are they take from if they have read any.

Mia Khalifa spoke at Oxford University. I don’t understand this at all.

Without TikTok and Twitter, there would be no “world revolution” since the citizens of America and Europe could not export their beliefs worldwide. Only through social media can they.

Steven Crowder claims to have an “anxiety disorder” yet he puts out the most outrageous material and has a podcast. This is pathetic.

It is amazing that the talmudists and freemasons tell the public how it will be run for them and then the public tells the talmudists and freemasons how it is run having studied the ideologies they put out like far left.

I believe smart people run America; however, they make big mistakes running it and also they have their ideological beliefs that they put in America could not possibly work that they put in at times.

Wha the elites and their pawns prioritize the most now is headlines. Before, it was warfare and trying to distort countries. Those two things they did took leaps back for their efforts.

What the wahhabs will say is it will lead to “disbelief” if the Muslims don’t follow their ideology what it puts out. The wahhabs will claim the Ummah will be destroyed. This will deceive the Muslims in the public. The wahhabs will keep separating their ideology from religions such as Christians and people such as Americans. The wahhabs will say the Christians and Americans acts are of “idolators.”

The elites and their pawns have been to acting classes for years, so they know how to exaggerate or fake emotions at a professional level. An example of this which isn’t the best example is when Alex Jones yelled at

Piers Morgan in an interview saying “1776 will commence again.” Ten years later, Alex Jones is a different person with Piers Morgan. That’s faking anger.

The elites put out Adam22 whose wife is a pornstar that committed adultery with the intent of making his group feel bad being around him.

America has rewritten what liberal and conservative is to add in their degeneracy and poor ethics. America then declares “this is what liberal and conversative is.”

In July 2013, Sony released an advertisement mocking Microsoft as a form of marketing for Sony’s PS4 for Microsoft’s new Xbox One because Microsoft required on its console to download games that are bought so the games are not shared with friends using the disc bought from stores. Years later, Sony does this for its own PS5. The video has over 19 million views. Who would think of such?

These clown freemasons, catholics, and talmudists will go along with anything such as seeking mental help as if they are on some “heroic mission.” I don’t know what to think of this.

The reason why the elites and their pawns have websites and YouTube channels with blasphemies such as channels as example “bless god” is because the elites and their pawns want to try to get the public to blaspheme by repeating their channels name saying, “bless god just put up this new video.” These pawns also do this to try to do this to “unite” Christian communities when they comment on Christians such as Brother Nathaniel saying they agree with part of what Brother Nathaniel says. This is a new low for them.

Mark Zuckerberg’s information is hidden, but he has yours through Facebook. More proofs elites exist.

Sonny Faz’s mother “we need to save this country”, Sonny Faz goes out and harasses the public to ruin America. Sonny Faz is worth 5 million dollars. This is low.

If these are the best universities the world has to offer, for example Ivy League, how come America is declining? Where is the accountability? Every year wages and tuition are going up in America.

Every year, reporting will go up, you are told by the public that people don’t want to report others.

The U.N. declared it “religious hated” to burn the Quran, the U.N. acts as if they own the Quran for themselves to try to tell the public how they want it written.

The elites get away with this because they have their pawns say that the elites in high positions are going to “enslave the earth.” For some reason, those in the public who claim that are not called “doomsday cult members.” If the claim was that the elites would enslave America and Europe, it wouldn’t be my problem, I will tell you that.

Billions are spent on “climate change”, half of your beaches are ruined from E.coli. What?!

America’s citizens play such victims and then they play it that they are hard. It doesn’t work that way.

Status still matters to Americans despite all states legalizing homosexuality. I cannot understand this.

The elites have their pawns like Steven Crowder and Sonny Faz’s mother so when referenced of “conversative” and “christian”, the elites’ pawns are referred to and come up first when Google searched. It is not only to promote them, but to ruin what conservative and being Christian is making things worse.

Because catholics, most talmudists, and freemasons don’t believe scripture, they write it their won way for the descriptions of the Prophets for instance claiming that Prophet Jesus could not perform miracles and that Prophet Jesus was a “socialist.”

I ponder if the cost was 50k a night at a psych ward if the centers in America would still threaten to send religious people to them since the centers to do that in America.

The elites’ pawns were saying in 2011 to go to trades. The next generation are going to trades, this means there will be a shortage of workers in STEM. It was correct for the elites’ pawns to instruct their pawns to go to trades since it costs nothing to learn a trade and it pays well. Since the elites’ pawns didn’t plan ahead, it was bad planning for the countries they boast so much about. The elites’ pawns cannot plan ahead, or they simply do not care since as I have shown, the elites and their pawns can never be wrong in their minds.

Back in the 90’s it was viewed as a meaningful conversation to tell someone why you believe something is a good idea. Not it is seen as persuading and “circular speech.”

Charlie Kirk when talking about Prophet Muhammad comparing him to the false gospel's writings "their prophet was a very violent person." Good luck.

If we called through WhatsApp, then the phones calls would go international. By design, the elites run the cell phone companies so that doesn't happen. It's ironic too because these same "open minded" American are so passionately against the idea of it. They will tell you "I don't want to give out my information." That's not the reason why they do not use WhatsApp. You have your facebook open to the public.

"We don't require a draft, let's disarm our own citizens by claiming over 1 out of 3 are mentally ill."

Paul Golding would date a talmudist Arab woman. He could care less about "britain first", he would leave it quickly.

What future generations will do is insult and claim that they are offering "genuine advice" to others.

The elites have at their jobs for the workers to take their photograph to show the workers work at the company, the elites try to make it look "hip" at jobs that do not pay enough to live off. The only reason to have a photo I.D. is in a professional work environment to access a lab, for medical, and for a bank to access wealth that is locked away. An example of how sketchy the elites are.

The elites do not pick a "team" between the democrats, conservatives, Christians, Muslims, hindus meaning they have no group to say, "this group shares what we want for America." What the elites do is have them all degraded in their country to see how each group tries to fix America. I didn't know this in 2008 when they would not insult the democratic party. Now we see what they really do.

Elon Musk renamed Twitter to "x". Nobody will know what someone is talking about when they say they are on "x", it is not a name of a company. Also, "x" can mean something serious.

The elite's method is to try something "new" every generation to try to influence the world. This is not working for them at all.

The talmudists read scripture allegorically, except for the Nile to the Euphrates and the "third" temple. Those are read literally.

None of wishing someone's suffering, claiming all people who aren't gay aren't worth anything, that doesn't file under "Hate Has No Home Here". You can say Elizabeth Warren is crazy and her followers are, that does not file under "hate has no home here" nor does saying "Let's Go Brandon" in

the workplace. What would be the point of “hate has no home here”? It only covers racism and sexism, something almost all Americans are against. I got upset at something I didn’t understand where I had gotten this so wrong where I thought people were trying to restrict free speech to the best of their ability when they took offense to what you believed. This workplace requirement called “hate has no home here”. It does not affect anyone in America, it is silly.

What all their worldwide media stations will say is that it is “violence” when we protest in the Middle East.

Americans who claim to be Christian rally behind David Wood who will fight to make sure the Bible is not put into law in the first world countries you live in. David Wood uses this as a narrative to condemn us Muslims. David does this to create more problems in America and claim it is because of Islam that America and Europe has problems. David claims there is only one “christianity” where the Bible cannot be applied into law. David claims to read the Bible literal saying Jesus died on the cross as some sort of historical “fact”. Do Americans who claim to be Christian realize how hypocritical this is?

One thing about famous YouTubers is that they say they get these “hate comments” they show their fans a few comments, the famous youtubers expect the public to believe they mostly get “hate mail.” This is not true.

American christians, how are you being persecuted in America when the country does exactly what you want by electing Donald Trump as President?

As of 2025, America will require a universal I.D. to try to globalize the earth. The real I.D. will have a star, I remember a country that once used a star in their flag.

Wahhabs if you ever read this, putting Andrew Tate in your wahhab beliefs have only made it much worse for you. Those who don’t follow Andrew Tate despise him. The wahhabs may think it benefits their beliefs a good amount because Andrew has such a high following, that’s not how it works. The next generation will despise him even more since their parents and friends despise him. What the wahhabs think is that Andrew will benefit young adult males into succeeding in life better. Whether this will happen in the future or not, those who despise Andrew will not say Andrew does a good job with young adult males. Also, this experiment of the wahhabs may go to nothing where Andrew’s results are so minor that I wasn’t worth adding him. The influence however will grow and grow for Andrew Tate each generation. This means the wahhabs will have less control over their

wahhabism to what degree I don't know. I do believe it will divide wahhabism more, again to what degree I do not know.

The democratic party and the conservative party is ruined so all that put their time and money into them wasted their time.

America goes by wealth, not by character. That's how you are weighed. The leftists say that is "capitalism", nope. It is also the leftists.

Americans want to condemn each other who isn't in their group, American's aren't interested in building up America unless if it is their groups way. America doesn't have a need for a flag.

A talmudist posing as a Christian in Haifa walked for five minutes and got spat at five times by talmudists.

All the people who come from other countries to gentrify that are not happy and take it out on others are free to leave America to go to another country to gentrify. They tell me all the time "if you don't like it here, you can leave." Maybe they will be happy gentrifying in Cuba or something.

Logan Paul to one of his "best friends" on a podcast while laughing "you are a racist homophobe christian, you hate women, you think women are inferior." Good luck.

Joe Rogan on his podcast "updates" his views on Christianity every now and then. Joe Rogan keeps trying to seem as if he's wanting to become a Christian more each time and he is searching for perspectives he is "not made aware of", that is what an elite would do. Joe Rogan already had his view on Christianity and already knew these false perspectives before talking about them each time on his podcast. Though I can't prove Joe Rogan didn't know these false perspectives on Christianity, these videos on YouTube he is putting out are form the last two years, I am certain he knew these false perspectives up to 14 years ago, these false Christian perspectives he's been talking about to his fans have been out long then that. You are saying he didn't know these perspectives or wasn't open to them at the time. Joe Rogan didn't already conclude on them? Why does his YouTube profile photo have a "third eye" on it?

When the public says something like "China is going to take over America", I don't even think the public cares. Less reason to vote in America.

At the elites music concerts for the public, they want the public to repeat the lyrics to the songs they sing about their silly beliefs. They have now started in Saudi Arabia the country that banned women from driving.

Imagine being a minion for the elites and thinking everyday it will be better in America when it isn't? I find this funny.

Dave Portnoy of barstool sports flipped off several times and said "**** you" several times to a pizza shop owner who correctly told him that what Dave does is criticize the pizza places Dave Portnoy doesn't like. Dave Portnoy then goes on Tucker Carlson's internet podcast to say, "the pizza owner is everything that is wrong with America." This is pathetic.

Americans are pathetic to the point where they show up to churches to say, "my values matter." They also feel their status matters where they are unapproachable. They found a way to claim both, when one is all they care about.

Most of the talmudists and freemasons are terrible with finance yet they are praised for it by the other elites.

Saudi Arabia puts of this lie of a "2030 vision" to make their economy less dependent on oil and more dependent partly on an entertainment sector. What Saudi Arabia is trying to do is bring in singers from countries such as America and Europe to sign about polytheist occultist lyrics.

Social media influencer Sneako claims he became a muslim. Sneako is a person who lets other guys sleep with his girlfriend. A year after "converting", Sneako insults Islamic practices in front of a stream with Myron Gaines a social media influencer dating coach fornicator who was taught the Islamic faith in his youth. On the stream, Myron Gaines said he would "die a kafir" for dating where Myron Gains smirked at Sneako after saying it. Social media influencer Whatdoyoumeme responds to the social media influencer Sneako to try to discourage Muslims by calling out Sneako insulting the Islamic community. It is obvious all three social media influencers are in on it. Sneako and Myron Gaines created this script they both came up with. What more would these animals do?

Joe Biden made it illegal to transport oil and natural gases that have been fracked. The oil and natural gases cannot get to a refinery because of this. Joe Biden said before he entered office he wouldn't make it illegal to frack. At other times, he said he would. I find this to be funny.

The police cameras are designed to record you, but not them. When they are acting like the animals they are, it isn't on camera. Their lost citizens "we want dash cams for cops!"

Vladmir Putin brought up recently how a former German soldier who fought against the Russians in WWII was applauded in the Canadian Parliament for fighting for "Ukrainian independence." The former German solider supports

Canada funding Ukraine against Russia in the war they are in. Putin discussed how the Russians fought against the Germans in WWII to overthrow the talmudists who were persecuted by the Germans in WWII. Putin was upset to talk address this calling the Canadian Parliament member “either an idiot or a bastard.” He’s in my lowest tier.

Mohammad Bin-Salman bought a fake painting that Leonard Da Vinci did not paint of “jesus” worth over $450 million in 2017. That would be another saudi law that doesn’t apply to him.

The saudi country has not one invention.

U.A.E. “warns” Syria not to intervene in the hamas-zionist war. May as well rename UAE to America or something.

Ben Shapiro started a new series on his YouTube channel “you have been lied to about Israel and Palestine.” Ben, the education system at any level doesn’t teach anything about the zionist-Palestinian conflict. The American news rarely makes mention of the conflict.

In TV debates, there will be much more instances of the host or the guest interrupting the person they are speaking to. You will see and hear so many arguments and fights on radio shows and podcasts that they can no longer be run in America and Europe.

Dubai has the most promiscuity of the world.

Jordan Peterson said, “only fans women are not women. They are in a million men’s bedrooms at the same time.” If anyone else were to say this, Jordan Peterson would call them vulgar names for saying that.

Jordan Peterson sent to Ben Netanyahu on Twitter “give em hell, Enough is enough.” You don’t believe in Hell Jordan. Is violence the answer Jordan? Jordan, what will you do to help the zionists? Also, Jordan who is “em”, is it hamas or the Palestinians?

Shaun King on his social media insisted that he helped free two zionist hostages from hamas. I don’t know what to think of this.

Women didn’t have the right to vote historically because they were not draft eligible. The elites leave that out of their public schools.

They have mentally ill civil rights lawyers in America. I wonder with this.

The elites and their pawns try to influence the whole world to try to tell the world how to think through politics and podcasts, etc. The elites and their pawns play this game of “I’m just putting my two cents out.” Now, the elites’ pawns want to run being a social media influence in several

instances. Add to that the elites and their pawns also have teams that are on full time salaries to do work for them along with influence on their podcasts. It is a start for the elites and their pawns.

Over 100,000 women in Iceland went on strike on October 7, 2023, in Iceland out of a population of 372,520. Iceland's economy was not affected. On average, workers in Iceland make $78,836 a year. What purpose is served having a country like Iceland.

From WWI up until 2008, the elites and their pawns used war to get to get their "third temple." In 2023, the elites and their pawns choose to use social media influence heavily instead of wars in most instances.

Mohammad Hijab a U.K. social media influencer who says he's Islamic went on Piers Morgan to talk about hamas and the zionists with "rabbi" Shmuley Boteach, the conversation went viral. Mohammad Hijab brought up how Shmuley has written and published several books on sex that Shmuley sells on Amazon and one of his daughters runs a sex shop in Tel Aviv. Both Shmuley and Piers Morgan make this scene saying to Mohammad Hijab, "why would you bring that up? This is not the place!" Can I ask, why would this "rabbi Shmuley" publish books like these and expect the person on the show he wants to discuss with to not be brought up? Why did he publish books on sex? Am I not allowed to ask? Shmuley did not want to use Piers Morgan as a platform to sell his books?

The U.S. government cannot tell their public that American corporations and the government cannot produce jobs that pay living wages, so what the Democrat and Republican leaders do is go back and forth over "15 an hour", "sign this bill" etc. It is embarrassing to watch.

It used to be "the rich get richer; the poor get poorer." This is somewhat true in today's world. However, now it is "the influencers get more influence." This is not something to celebrate.

Where are the social media influencers like Lauren Southern to do their "reporting" in the zionist state during the hamas-zionist war in 2023?

D.J. Khaled with 38 million followers on social media made no posts on social media supporting Palestinians during the hamas-zionist war. As if it isn't obvious enough that he is in on it.

The elites and their pawns try to get banned from several social media platforms owned by other elites. The elites and their pawns turn to the public on other social media platforms to try to influence others on a platform owned by one of their own.

Sneako, one of the biggest voices for the red pill movement left it. He now makes fun of those who are in the red pill movement. I am not sure how this works.

If the elites and their pawns cannot even manage their countries, how will this “third” temple of theirs operate?

What the elites and their pawns do is most of them will shame the public for something a person in the public for a policy their politicians of theirs put out. When the policy doesn’t work, the elites and their pawns who denounced the belief claim they are “heroes” for denouncing it after the public had already warned the elites as much as the public possibly could.

The elites and their pawns tell the public that their beliefs are separate from the country they are a citizen of. That’s not how it works, their citizens fought wars for their country to be in place.

The talmudist elites impose their beliefs on their public in their countries in the Middle East. The talmudists try to teach their version of humility to their citizens. The talmudists elites are worth billions. They are worth more every year.

The elites and their pawns want “freedom” not justice. They deceive their public into thinking they want both “freedom” and justice.

The media is run by the elites and their pawns this means we in the public cannot cite them. As I have displayed, the elites and their pawns state the protests in Bahrain as “violence” as if it is a fact. We have to get our news from websites. The public will tell us that we go on “websites” as if we want chaos in countries they own as a way of saying they are morally correct or something by telling us how to live our lives. This is added to how they claim we are not credible sources and how the elites and their pawns run their own “protests”. I have no words for this.

The elites and their pawns enjoyed putting those in their countries down. When they were tired of putting down their citizens, they put each other down.

The elites and their pawns are willing to what they can to believe they are better than you.

My advice to the elites and their pawns would be to stop talking about themselves all day and start to educate themselves. Education on matters is something they severely lack.

The largest protest in U.S. history was in Washington D.C. for what the protesters believe is supporting Palestine. I don’t know what to think of this.

To those who laugh at these Ivy League schools who produce these clowns, you are paying for them financially through their tuition with the grants they get.

A famous Youtuber named Masked Arab who makes videos using Omegle said to someone on it that he is dressed as his "uncle" who died on September 11th, 2001. Good luck.

Piers Morgan spoke out against cancel culture. That is how out of control cancel culture has gotten.

Bill Maher said that if Yaser Arafat accepted the zionists "treaty" then the "Palestinian state" would look "more like Dubai and not Gaza today." Does Bill Maher even believe this?

America rewrote history with the 1973 war between Egypt and Syria against the zionists. The zionists Prime Minister Golda Meir was going to use the zionists nukes on Egypt and Syria after the two countries were set to enter the zionist state to conquer it. Anwar Sadat who was the President of Egypt during the 1973 took leadership with a treaty between Egypt and Syria with the zionists.

A Harvard economics professor who was on the Obama administration's wife named Eve Gerber was yelling at a Palestinian woman at Harvard University calling the Palestinian woman a "terrorist." What is highlighted here is that she hates Muslims, what are her beliefs of people of other Abrahamic religions?

The zionists historically hid the invasions they had in the Middle East trying to make sure the world would not protest their wars to get from the Nile to the Euphrates. Now, the zionists flood their social media accounts to try to explain every single detail about their enemies expecting the world to protest for them.

The elites steal your information through social media websites like Facebook, the elites hide your information if you post on YouTube. The elites will expose a pawn giving out their information to the public If they don't agree with a pawn.

Andrew Schulz the famous social media comedian did a show in Abu Dhabi. He made a joke about crapping on prostitutes to solve an issue there. The crowd laughed. What a bunch of animals.

The social media influencers did nothing for their zionist state during the 2023 hamas war. In no way did their promotion further their countries support of the zionist state.

Andrew Tate says that the elites are targeting him. Andrew Tate is worth 710 million dollars. I’m not sure what to think of what he is saying here.

If hamas is winning their war with the zionists, you will see the elites recruit more for hamas to fight in Lebanon and Syria.

Tommy Robinson has left three British political parties within a 15-year span. Tommy has come to realize the parties he joins in the U.K. are with people who are clowns.

The Gaza Strip has over 537 billion dollars’ worth of oil reserves shown in a U.N. report in 2017. I am wondering with what is going on with this report. It is difficult to believe it has nothing to do with the hamas-zionist war in 2023.

Douglas Murray got angry on Piers Morgan’s online show when a guest said that the destruction in the Gaza Strip was higher than the destruction in Dresden. Douglas, your British country caused Dresden to be destroyed. What is Douglas getting angry about?

75 percent of young Americans are sympathizing with Palestinians. 16 percent are sympathizing with the zionist state.

A famous YouTuber named Vegan Gains takes antidepressants, he made a video about it. He has a large fanbase of 317k subscribers.

Lebron James endorsed the zionists in their 2023 war with hamas. The people of Boston Massachusetts are “racist” to him. Are the Palestinians more “racist”?

“The war room is kind of like the illuminati but cooler”- Andrew Tate when talking about his online courses that cost upwards of 10k. I don’t want to get into this.

Twitter now known as X is worth 71% less since Elon Musk bought it.

Because young adults are loaded with college loans, that means many landlords won’t want to rent to them. America messed that one up as well.

Jack Doherty is a 20-year-old YouTuber who makes money through only fans and prank videos. He has videos on YouTube and pictures of him on Instagram wearing a cross. I wonder why.

The wahhabs will put their younger generation in their government to try to export wahhabism globally believing the younger generation wahhabs in other countries will agree with their beliefs on running their wahhabism ideology. The younger generation wahhabs beliefs will be from bad to horrible.

75 percent of young Americans are sympathizing with Palestinians. 16 percent are sympathizing with the zionist state. You can expect the elites and their pawns to do more to promote wahhabism and weaken their zionist state support worldwide through social media in the future.

Andrew Schulz on his podcast with his guests boldly told them “You need Christianity, you need Christianity, you need Christianity” to them. Andrew Schulz could have said to his guests “you need Christianity, you need hinduism, you need buddhism.”

To get a sense of how lost the elites and their minions truly are, they believe the insults social media influencers put out will bring the “best” ideology that their first world countries will embrace. They have completely forgotten that ethics will fail in their countries with one of the main reasons being that.

“Themuslimmum” on YouTube said she started her social media channel because of all the “hate from islamophobes.” She has 32k subs. She has many videos. One of them is in caps “muslim revert Ibrahim x destroys Christian islamophobe David Wood.” She is childish. “Themuslimmum” made a video claiming Adolf Hitler said if the Arab Muslims conquered Europe, they would not maintain Europe because of their “racial inferiority” that only the Germans could have Europe. I have not seen one source for this. Also, she only mentioned Germans running Europe. I don’t know how she tied in “muslim Arabs” where brown is the only other race of the world. I get the sense she added it in making her video only about “muslim Arabs.” She also leaves out of her 3-minute-long video that leaves out her 3-minute-long video that Adolf Hitler considered converting Germany to Shinto or Islam. She later said Adolf Hitler only wanted to twist religions with a short video it, her argument is conclusive to her. This is why social media cannot teach history. She also said in the short video “there was also a small amount of christians and muslims killed at Auschwitz.” I am not sure how to respond to this. Thank you “themulimmum” for this video which sums it up for me why not to watch videos on history from social media. “Themuslimum” on YouTube “gratitude is a new concept in the west. What platform does this “muslimum” speak from? Every video “themuslimmum” makes consists of making fun of someone of another religion. She has several titles that have in the description “humiliates”, “exposes”. She says the “extreme left” is “pretty crazy.” She then says the “extreme right” is “pretty crazy” which is what she talks about in the video calling this “extreme right” ignorant” and nationalist” seconds later. She mentions border control in the video as a way of shaming others who tell her to leave the country. Her countries such as Saudi Arabia won’t let in Muslim

refugees. I can’t even start to respond to her video. None of this is considered hate to her claiming people she doesn’t like are “Adolf Hitler.”

Vegans can clog their arteries through oil and fats.

Electric cars are expensive, most liberals expect the public to get them.

Robert Spencer on Twitter insulted Patrick Bet-David who is a famous YouTube podcaster after he went on his podcast by himself. Robert also insulted Daniel Haqiqatjou and his friend “the Muslim Metaphysician” calling them both the “dawah boys.” Two major issues here, one is that he went on a podcast alone that he didn’t have to go to only to insult the host of it. Two, calling Daniel H and his friend “dawah boys” on Twitter, who are you, Robert Spencer? Robert claims to be a Christian. I am not sure why Patrick Bet-David would bring him on a show. Robert Spencer blocks many people on Twitter, he feels he’s being bullied.

Bobi Althoff is a social media influencer that got famous through podcasts with celebrities. She did her first podcast with singer Drake in a bed with him, it’s a tough economy out there.

Charles Darwin in his book The Descent of Man said, “at some future period, not very distant as measured by centuries, the civilized races of man will almost certainly exterminate and replace throughout the world, the savage races.” Charles Darwin was speaking about Europe replacing Africa.

“Journalism has become activism, really. They aren’t looking for the truth.” Dave Portnoy.

Ismail Haniyeh is a leader of hamas. He is worth 3 billion and lives in Qatar. If it isn’t clear enough.

The Arab Gulf council tell their public they support the people of the Gaza. They don’t do anything to support them by sending tanks for instance when the people of the Gaza are invaded.

President Joe Biden got heckled by citizens of America for supporting the zionists during the hamas-zionist war. I find this funny.

India boasts about how there was never “antisemitism” in India since the talmudists were there for over 2,000 years. The talmudists made up a small minority in India called Desi Jews. I don’t see how that is something to boast about.

The elites’ pawns keep making these silly speculation videos on social media of other pawns if they will “become a Christian” that the pawn they are making the video for is “on their religious journey.”

The elites’ media seems to forget that if the zionists didn’t send rockets into the Gaza Strip for many years, they would not have been invaded in 2023.

The elites generation to generation run the banks.

Every time a celebrity visits a German concentration camp, it is seen as “historic.”

The elites will call out other elites for their actions on what the elites are or are not doing with their politics to try to go viral on social media. The elites want the biggest headlines doing this and the elites want the most influence on social media because of this. The elites’ goal is to influence the next generation through the highest number of social media reposts. A recent example of this is the former zionist prime minister Naftali Bennett calling out Jordan’s queen Rania on Piers Morgan’s online show for her calling the zionist state “an apartheid that engages in barbaric acts against Palestinians.”

Douglas Murray on Piers Morgan’s YouTube channel “hamas is worse than the nazi’s.” Here we go again, and again.

Naftali Bennett the former zionist prime minister said on Piers Morgan that zionist troops are fighting “only isis, hamas”. There are no daesh troops in Palestine, Naftali lists daesh first when talking about hamas. Naftali is doing this to tell the world the zionists are fighting their enemy that is serious enough that much of the world would want to join with the zionists to enter a war with.

Bernie Sanders used 200k of his campaign money to give to his wife for her “nonprofit”. Is this socialism, America?

Enes Kanter Freedom a former NBA backup player wears shirts saying “silence is violence” on them to interviews.

South Africa has the highest unemployment rate at 31.9%.

The elites will bring on the worst possible guests to their shows and get outraged by the guests they bring on.

Ben Shapiro in his rap song “my money like Lizzo, my pockets are fat”. I don’t know what to think of this.

Albert Pike’s letter that the internet reposts did get correct that the zionists and Muslims will fight a war of some kind in this “WWIII” that Albert speaks of. What Albert got wrong is there will not be nihilists and atheists running the earth. This means Alber Pike was far off people on the internet who repost his letter.

Shaun King who is now 44 years old was banned from an event in America called CAIR in Minnesota after he claimed to become a Muslim and was charging tickets for $1,000 a day on a speaking tour he is on. CAIR was pressured by those who are a part of it, so CAIR had cancelled the event. Shaun’s tour was about him claiming to show solidarity to the people of Gaza and that he wanted to become a Muslim. Omar Sulaiman did not speak on this when he was with Shaun King a week ago.

Shaun King was a far-left activist who later became a Christian pastor now claims to be a Muslim. The way I worded Shaun King’s efforts will spell out what an elite and a pawn like Shaun King is doing.

Dennis Prager- “I have never called any one or any group a group nazis. The only distinction between the nazi’s and hamas is that hamas publicizes its butcheries, and the nazis hid it.” Dennis, and numbers of troops comparing hamas to the nazi’s? There’s barely anything written on hamas.

Jon Stewart made a big deal about how Mohammed Bin Salman only donated 200 million dollars a year of the saudi finances to the Palestinians. Jon Stewart pointed out how the saudi family spent 200 million dollars for Phil Mikelson to sign to play golf in their saudi country. This is an example of social media influence that Jon Stewart an elite wanted to make his fanbase upset at a well-established fact that Mohammed Bin Salman couldn’t care less for Palestinians since he was installed into saudi office by his father.

“Two-state solution” was not mentioned much at all until recent years. It makes me wonder how today’s first world countries will research something that was not discussed much at all.

Jidion a famous YouTuber was banned from all NBA and wnba games for sleeping on the wnba’s courtside during a wnba game. Adam Silver got offended for the wnba players who were offended by Jidion.

When the country is succeeding that the catholics run, “we want it to be the best country in the world”, when the country is failing, “we wanted the country to collapse for our third temple”. They should not be running a country.

More than half of Gen Z and Millennials identify as independents. This isn’t the same America anymore.

The elites and their pawns who are social media influencers will say certain things about each religion and each religions text. It is starting now.

The elites and their pawns will keep funding these activists in their countries worldwide. The activists will go to their countries worldwide to

start protests there. The elite's media will give the activists headlines from both the left and the right in their countries where the left either supports them in full or the right supports them in full and the other party despises the activists the elites and their pawns fund knowing that other elites and other pawns funded the activist. This is only the start of what will be terrible for what their countries citizens will have to endure.

The generation I am from and the generations that are younger than me cannot seem to realize that America cannot have homes available for them to buy. The American news blames it on prices, the fact of the matter is that there are no homes available to be bought, there were not enough homes built for the next generation to buy.

The host on the podcast whatever said to a woman who insulted him "you do onlyfans, get off my podcast *****" listing off many insults consecutively. There is an issue with this way of thinking, the host brought her on his podcast knowing she is on onlyfans. If she does get kicked off, then he can insult her being on onlyfans when she makes fun of his podcast.

I believe it is these colleges that are more than partly responsible funding these activists. The colleges get laughed at by the internet, the colleges don't care that they are getting laughed at and there seems to be a reason for the colleges not caring.

The knights templar was so wealthy that they practically owned the entire island of Cyprus. It is not a conspiracy theory of the knights templar being well known.

The elites and their pawns speak highly of each other on their podcasts to network fanbases and to make it seem like they are people you would want to hang around with. The elites and their pawns do this because they are speaking highly of someone who is similar to them. It comes as no surprise that Joe Rogan and Elon Musk are close friends. It is embarrassing to watch Joe Rogan speak highly of Elong Musk on his radio show.

The zionist Shmuley Boteach does such as terrible job, the American public wonder if he works for hamas to give zionists a bad name. Shmuley Boteach now wants lawsuits against both Candace Owens and Alex Jones. The American public doesn't know what to think of Shmuley Boteach.

The elites and their pawns show photos of zionists in Germany's concentration camps during WWII to say hamas is the same wanting zionists to be "exterminated." This is hypocritical on their part since the people of Gaza are caged in and cannot go far beyond the cage in the Gaza Strip or else they will be shot by the zionists. During the war, Ben Netanyahu cut off food supplies for the people of Gaza.

The elites and their pawns will do whatever they can do believe they are better than you.

The zionists cannot run their country, so they blame the Palestinians.

France has banned abayas in their public schools under the claim that religious clothing is not part of “secularism.” Why isn’t liberal clothing banned? Why isn’t casual clothing banned?

The elites and their pawns will never mess up sports entertainment, though they have done damage to their field they own with having Disney own SportsCenter.

The zionists beliefs can not run a country. The zionists convinced the American public that their enemies such as Iran were so strong that’s why they needed over 18 billion dollars a year of American taxpayer dollars.

The zionists wanted a high approval rating, the zionists didn’t get their high approval rating they are seeking. The zionists feel the need to blame someone else so they claim antisemitism about the American public.

After the fresh and fit podcast host Myron’s cohosts scandal, it shows how Myron isn’t capable of making good decisions and his response to his cohosts scandal shows he is not mature enough to handle situations. This may be one of the worst things the elites and their pawns have done in years. It is scary that people like him are one of the elites’ pawns.

Ben Shapiro called the Biden administration “pro-hamas”. I am speechless.

Ice Spice who was at Taylor Swift’s booth at the Superbowl was wearing an inverted cross and was making horn signs. Good luck.

Bobbi Althoff on how she got famous on social media said with David Portnoy “I would drive to L.A., and I would pay people $300 to be on my podcasts.” Ok.

The younger generation zionists are using the 2023 war with the Gaza to protest their government and to try to rebrand zionism.

Are there going to be more rappers like Ice Spice where she puts out off stuff and Ice Spice is smart?

The crew that writes music for famous singers are done writing music for them; the writers have nearly run out of ideas for their singers to sing about. With the ideas the writers have left, they want to promote new singers such as Ice Spice for many reasons, so they give their son lyrics to her.

I wonder if it is difficult for Alex Jones to talk to the pawns of the elites where many of them such as Tucker Carlson made fun of him for years. The elites' pawns want to be around Alex Jones time and time again.

Nearly all protests in today's first world countries are run by the elites and their pawns. If there is a protest that doesn't involve the elites or their pawns, the elites and their pawns will try to run it by having a pawn be a speak or run the protest.

Fox News lied to their audience saying hamas was created by Iran.

Amar'e Stoudemire a famous retired basketball player got angry at black lives matter for not supporting the zionists during the 2023 hamas war. Amare, you are only welcome in the zionist state because you have wealth.

The zionists expect the public to be a part of their protests for their country.

The elites and their pawns seem to forget that they wouldn't have their countries if taxes were paid. It is the United States of America. Someone has to pay to them, would they start their own construction, farming etc.?

The zionists blame surrounding nations for every war they have started.

Lauren Southern is not quitting being a social media influencer, she is getting insulted by most of the internet for her awful beliefs.

Sartorial Shooter speaks positively of Islam which he claims to be a muslim. Sartorial Shooter will not claim to be a Muslim later on if he thinks for instance being democratic makes more people richer than religion does. Elites and their pawns like those just go from one thing to the next years later. Sartorial Shooter does that for wealth-based reasons.

All this activism that the elites and their pawns pushed has backfired because the activists are protesting America's wars. The goal of America was not to have any wars, only to have activists in foreign countries destroy countries. The elites and their pawns did not want this and there is nothing they can do about it.

Zionism is headed nowhere. The zionists will not get their first world countries to support the zionists if they invade Lebanon.

After the 2023 war in Gaza, the zionists will try to use the war as more reason for them to invade the West Bank.

What the elites and their pawns seem to ignore is that they don't have leadership in every field. The elites and their pawns really believe it. The elites and their pawns will lack in fields. With any country, there will be fields where countries lack in. The elites and their pawns believe they are

the best at everything. The elites and their pawns will deny what they believe to the public. Once they lack in a field, they attack someone else for the field that is lacking who is on their side who explains what they are doing wrong while keeping that person in charge of the field they lack at or replacing them. It is without words.

Richard Dawkins now endorses Christianity. Richard recently said, “I’d choose Christianity every time” when asked about what religion he would want to live under calling Christianity “a fundamentally decent religion, in a way that I think Islam is not.” Richard is now a “cultural christian”. Is this really happening?!

It has become obvious by this point that those who try to get most comedians to quit being comedians are jealous because the comedians are famous and they are not.

Selena Gomez made fun of women who are not married in their 30’s by having a fake wedding for herself.

Brett Cooper, one of the most viral social media influencers responded to a comment that said, “your society is f’ed..", Brett’s responded by saying “we know, we are very aware, that’s why we are working on it, that’s why we make these videos.”

The elites and their pawns will keep flooding social media. They also have workers post on their social media accounts.

It has become clear that the elites are putting their pawns on social media as an effort to fix what America has done poorly. The list of names are Jesse Peterson, Emilysavesamerica, Brett Cooper, Matt Walsh, Christine Grace Smith etc.

Andrew Schulz brought Myron Gaines on his podcast to degrade Myron Gaines by asking him, “why do you guys not like black women?”

Mosab Hassan Yousef said Palestinians are Arabs when he responded to Abby Martin on Piers Morgan saying, “stop calling them Palestinians!” They are not Palestinians. We are Arabs of Judea and Samaria.” Mosab responded to Piers calling the people of Palestine by name of Palestinians by saying to Piers “you give them that name. You force the international community and the rest of the world force that name on the Palestinians.” The elites and their pawns are pushing that Palestinians cannot be Palestinians.

Rabbi Shmuley said, “I challenge Cenk (Uygur) one more time if he wants to respond since he says he will never debate me again and I wouldn’t if he was either cause he doesn’t know basic information.” That’s kind of mean to say.

The zionists have campaigns saying, “take Rafah”. There is a problem with this, the zionists already have control of the Gaza Strip.

Ben Shapiro is angry about his zionist country not getting international support. He keeps pushing and pushing social media influence while he’s upset.

Faris Hammadi a salafi social media influencer said only scholars of the salafi belief can decide if a Muslim can protest a company like McDonalds. Faris received backlash for saying this. He later said the individual can protest what he or she wants to.

Alan Dershowitz on Piers Morgan said, “I think Obama has always had a deep hatred of israel in his heart.” It sounds impossible to work with people like these since Barack Obama would respond back in a similar manner.

The elites and their pawns will switch political parties to try to make fun of those in the other political party. That is why many pawns of the elites are American conservative in 2024.

If the zionists lose their American conservative endorsers after trying to get Candace Owens fired, then they are in trouble which could be potentially serious for the zionists. The zionists didn’t lose their American conservative endorsers after they tried getting her fired. It is one of those dumb things the zionists did recently.

Who knows if Mosab Hassan Yousef was a zionist since the 2,000’s. I believe he was since he spent so much time spending years teaching himself to speak against hamas to a different audience in 2023. Mosab comes out of nowhere after takin decades off. It gets worse; Mosab’s father is co-founder of hamas. Mosab’s youngest brother called hamas a “terrorist organization” in 2019. This is noteworthy because Mosab’s father was the co-founder of hamas in 1987.

The elites and their pawns are using those in today’s first world countries who support whatever this “hamas” group is to say they are unfairly insulted. On Fox News, they commentate on many videos of activists that are either immature or are uneducated.

The elites and their pawns believe they can lie at their jobs they work. Often times, they take jobs that require responsibility and leadership.

The elites and their pawns do not talk about how the zionists do not want a two-state solution with the Palestine. It gets odd because they are teaching a “two-state solution” to the public.

The public is unaware of who tutors the elites and their pawns. We don't know the source of where they are being tutored.

Jon McCray the social media influencer known as Whatdoyoumeme said in a YouTube video, "we have more historical evidence for jesus than any other historical figure." Jon McCray will say anything that comes to his mind.

Pet Bet-David said on his podcast, "not comparable to what we give to Ukraine" when asked about the billions given to the zionists yearly. Pat, that's not how it works.

Activists walked out of Jerry Seinfeld's speech at Duke in 2024. The activists wanted to make a scene.

The zionists will say every threat they face is the most dangerous threat they could face. This is shown with how the zionists tell the public that all neighboring countries will attack them and that the people of Gaza pose a threat to their zionist state when only a few countries sent aid to the people of Gaza. When the zionists when they fought Hezbollah in the 2006 Lebanon War, the zionists conducted a surprise attack on the people of Lebanon to try to capture the land from Hezbollah who lived within the country of Lebanon. The zionists did not tell the public about the war they had started that had lasted for over a month. The zionists now tell the public that they must be funded internationally for every war they start.

Myron Gaines and his cohost said they wanted to fight Aba and Preach in 2023. Preach responded saying he would fight Myron Gaines and his cohost. Myron and his cohost did not respond to Preach. Myron Gaines was 42 years old.

Ben Shapiro is outraged at those who support hamas. Ben has not denounced his zionist state for creating hamas.

Nearly all the protestors in today's first world countries who are protesting for hamas are only doing it to destroy public property in the country they live in or they want to get more followers on social media.

Many on social media do not like Nas Daily.

A Nigerian perspective a famous social media influencer posted on YouTube a biased podcast with a zionist about 4 hostages that were located in the Hamas-zionist war. He needs to get a life.

Andrew Tate said he left Christianity because he doesn’t believe Christians are practicing anymore at least in Europe. What is confusing about this is Andrew claims to be a Muslim because of his claim he made. However, Andrew is trying to claim that he is a Christian when he is in Europe and a Muslim when he is in the Middle East.

YouTube took out their dislike option. YouTube has the option of disabling comments. Facebook took out the dislike option. Instagram does not have a dislike option. TikTok does not have a dislike option. This is done to make the elites and their pawns have more social media influence since the dislikes on a platform like YouTube would show that most of what the elites and their pawns put out is garbage.

The elites and their pawns only way to dominate social media is for them to promote their famous influencers and for their famous influencers to put the most amount of their material on social media as possible. Jordan Peterson is an example.

Jidion the famous social media influencer quit his Christian YouTube channel after 5 months after he had given up YouTube pranks for a Christian YouTube channel. Jidion re-uploaded his prank videos on a separate channel.

The saudi country is detaining its citizens who criticize the zionists on the internet during the hamas-zionist war. Having relations with the zionists means more to the wahhabs than their own citizens.

Bronny James is now one of the worst G League players in the G League. The Los Angeles Lakers guaranteed 4.4 million dollars in his four year contract.

Protestors in today’s first world countries have shown that whatever results that are positive come from events they had protested, the protestors will say it was because of them protesting. Whatever negative results for events

that happened that they had protested, the protestors will say they are not liable for.

America was founded on protests called a revolution. In 2024, America has the most amount of protests worldwide.

The pawns of the elites YouTube channels are about fixing their countries such as America. The pawns may make their channels seem “controversial” for lack of a better term; the pawns are doing it as if it is some sort of a job.
